

FOR IMMEDIATE RELEASE

**BICICLES WORLD PREMIERE**  
**11 February 2017**

Calgary, AB  
30 January 2017

The world premiere of *Bicicles*, the documentary about winter commuting by bicycle in Calgary, will take place on Saturday, 11 February 2017 at 3:00 pm at the Globe Cinema, 617 8<sup>th</sup> Avenue SW in downtown Calgary. The film explores why everyday people will choose to ride their bike to get to work in the winter.

*Bicicles* celebrates those people who refuse to stop biking in the face of snow and sleet. Filmed during the winters of 2014 - 2016, the documentary follows four "brave" souls on their typical winter commute. Along with interviews and expert insight from city councillors, business organizations, and everyday cyclists, *Bicicles* examines how winter cycling is becoming mainstream in a city full of drivers.

*Bicicles* was written and directed by Calgary filmmaker Kim Kelln, and co-produced with local cinematographer and editor Robert Peddle. The film features rides by Fa-Linn Woollings, Mike Scullen, Ellen Hadley and Scott Walton. Woollings and Scullen were both nominees for Bike Commuter of the Year at the 2016 YYC Bike Awards.

Bull and Ship Films concluded a successful crowdfunding campaign late last year for *Bicicles*. The funding was key to finishing the film in time for Winter Bike to Work Day.

Tickets to the world premiere are available only through the *Bicicles* website at [BiciclesYYC.com](http://BiciclesYYC.com).
